

“There's always a new day,  
there's always new hope.  
Each day, no matter how  
dark our day is, tomorrow  
morning we *will* have a  
sunrise. There is always  
hope, **and there is always  
going to be a sunrise. That  
sunrise to me is Day One.**”

Dianne Nason  
Senior Vice President  
Key Private Bank  
and former Day One  
Board Chair

Day One’s mission is to improve the health of Maine by providing substance use, mental health and wellness services to youth and families.

Day One's vision is that all Maine youth will have opportunities to realize their full potential to live productive, healthy and rewarding lives.

**Brighter Futures**  
**For Youth and Families**

# Day One provides the most complete continuum of youth and family-based services in the State of Maine

## School-based Services

Substance use and mental health counseling in local schools; and the Natural Helpers of Maine, a peer-listening prevention program.

## Outpatient Counseling

Safe and confidential substance use and mental health counseling for children, teens, adults and families.

## Behavioral Health Home

Coordination of existing services using behavioral health expertise of community mental health providers.

## Our Approach

Day One programs intervene at an early stage in a young person's development to give youth the chance to achieve their full potential. Our highly-qualified and licensed clinicians bring a trauma-informed approach while striving to involve families to break the cycle of substance use suffered by generations of Mainers.

## Homeless Teen Services

Low-barrier substance use, mental health and case management services for homeless youth at Preble Street Teen Center in Portland.

## Residential Services

Intensive treatment for youth ages 14-20 from all over Maine. Locations in Cumberland, Somerset and York Counties.

## Corrections Services

Substance use counseling and reintegration planning for individuals at Long Creek Youth Development Center and Mountain View Correctional Facility.

## Innovation

- \* Integrated continuum of services to serve every stage of recovery.
- \* Evidence-based models.
- \* Collaborative partnerships.
- \* Focus on treatment, education and skill building.
